

A 50th Anniversary Event Sponsored by the Israel Committee

The Israel Committee of Beth Judea invites you to join us on

Thursday, April 19, 2018 at 8:00 pm

In honor of Israel's 70th anniversary and Congregation Beth Judea's 50th anniversary, Steven Peck will be displaying model aircraft and tanks from his extensive collection representing those used in Israel in 1948 during Israel's War of Independence and in 1968, immediately following the Six Day War. He will be giving the back story of many of these aircraft and tanks. It is especially fitting that the event will be on the night of Israel's Independence Day (Yom Ha'Atzmaut) and the week before CBJ's big anniversary celebration. Steven has acquired and built scale models of almost every type of aircraft that has served in the Israel Air Force (including from before the state was officially founded), Israel's various airlines and tanks and military vehicles serving in the Israeli Army.
