Invites You To Participate In

The ABCs of the BDS MOVEMENT

A Workshop for Students, Parents, and the Community

BDS (the boycott, divestment, and sanctions movement against Israel) is a global, extremist campaign to poison the minds of future decision makers against Israel in order to marginalize and eventually eliminate the Jewish state. If BDS is not already on a campus near you, you can expect its arrival soon. **An informed community is the best defense!**

The workshop addresses:

- BDS goals, both stated and unstated
- BDS history, a sordid past
- BDS fronts on campuses and in academic associations
- BDS tactics, including the misuse of human rights terminology and intimidation
- Tools and strategies to empower you to protect and support students

Sponsored by Beth Judea Israel Committee
